Fowler was shown where Mr. Crane was sitting and, taking a paper from his pocket, he said to Mr. Crane:
"You are under arrest. The bond you gave in court yesterday is a fake."
Mr. Crane's face became white and he began to stammer out a demand for an explanation when Police Lieutenant William Kennel, of the Mayor's office, leaned over Mayor Mitchel and whispered. Immediately the Mayor exploded with laughter, and it was not long before all at the guest table realized that Kennel had "framed" the joke. Mr. Crane recovered his breath in a half hour.

Members Praise Minister to Netherlands on Eve of Return to His Post.

The Lotos Club gave Dr. Henry van Dyke, United States Minister to the Netherlands, a rousing welcome last night. Dr. van Dyke expects to sail for his post to-morrow, and the club wanted to tell him how much it thought of him before he went away. He was glad to be there, too, for he said:

"I came back to get my eyes patched up. It's done them good already to see you. I'm glad to see, too, that there have been no submarines or mines floating in the water where the lotos blooms."

blooms."

Dr. Van Dyke would not talk much about the war in Europe. He said he would rather have his tongue cut out "than violate the magnificent plan of neutrality which our splendid President has laid down," but he did call the war "incredible and unspeakable—incredible because every nation engaged in it says it did not start it (and that's incredible), and unspeakable because I can't talk about it."

He predicted that Holland, "which has met her duty in respect to the Helgian refugees in a manner beyond all praise," would have to harbor 300,000 or 400,000 of them this winter, because their homes were ruined.

Otherwise they could go back, he said, "for the rule I saw in Belgium was kindly and friendly." He said, however, that aid was necessary, for if the Belgians, used as they were to strikes, "should feel the pinch of hunger it would lead them to violence and they would be shot down."

Standing just underneath the picture of Andrew Carnegie, Dr. van Dyke said that he had retained a sculptor to work on a marble of "Peace Through Justice." to be sent from this country to the Hague Tribunal Peace Palace.

Chevalier W. L. F. C. van Rappard, Minister from the Netherlands at Washington, praised Dr. van Dyke and lauded the United States, too, and was followed by Oscar S. Straus, who led the Lotos Club to unhappy memories of William Sulzer by saying:

"I was here two years ago at a dinner given to a person just elected Governor of the State of New York. I will not mention his name, because I do not wish to give you pain. You **BUT DRAWS \$1,800**

Randall arrived here on Wednesday, and spent the night in the Union Station. He wandered about the city to-day, and finally gave himself up to the police, saying he had been recognized as a leper first in San Francisco in 1910. After having been in custody there for about eighteen months he had eluded his guards and left for Salt Lake City.
